Professional Profile

I earned my bachelor degree from University of Computer Studies, Yangon and have built a strong professional foundation. My expertise includes consulting, designing, developing, managing, and maintaining software applications for various clients. With over 7 years of experience as a software developer, I specialize in web development using technologies like C#, .Net Framework, ASP.NET MVC, ASP.NET CORE, Blazor, HTML, CSS, Bootstrap, JavaScript, JQuery, AJAX and AngularJS. I excel in developing web applications, websites, APIs, and databases, employing both Waterfall and Agile methodologies. Passionate about technology and collaborative problem-solving, I have successfully managed over 20 software development projects.
